## THE MEYWALK 2000<sup>®</sup> GETS EVEN BETTER!

	<p><b>Colour Change</b></p> <p>The Meywalk is now available in turquoise (RAL 5021). It is the same colour which we use for the Miniwalk<sup>®</sup></p> <p>Effective immediately, the pink colour option is no longer available.</p>	<p><b>Remark</b></p> <p>We hope that you will find that the turquoise colour is more pleasing to the eye.</p> <p>We believe that the new variation will be suitable for both boys and girls.</p> <p>Please note that the blue colour option remains unchanged.</p>
<p><b>Lever Bar Locks</b></p> <p>We have replaced the “flaps” with a bent rod to make sure that the lever bar locks securely when the seat is raised in the high / walking position.</p> <p>Deliveries of the new system will start very soon (a few have already been delivered).</p>	<p><b>Remark</b></p> <p>Due to inaccuracies in the welding process we have experienced that one of the two locking pins did not lock into the flaps when the lever bar was pushed down. This problem should now be solved.</p>	
<p><b>Hip Pads</b></p> <p>A brand new option for the Meywalk. We offer them as a set with article no. <b>104215</b> priced at <b>DKK 950,00</b>.</p>		<p><b>Remark</b></p> <p>This set of hip pads is a solution for specific users who need more fixation of the hip. They are easily adjusted in the width for easy entry and exit of the walker.</p>
	<p><b>New Non-Reverse Brake</b></p> <p>We are replacing the 16” one-way wheels with this new bolt-on kit. It is retro-fittable and can easily be turned on and off when needed. The article no. is <b>104023</b> and the set price is <b>DKK 350,00</b>.</p>	<p><b>Remark</b></p> <p>Many of our customers have anxiously asked for a kit that can be turned off when a user is, for example, caught in the corner of a room. This set offers the solution – and at much lower cost than the previous option!</p>
